

## **CHIEF FINANCIAL OFFICER – CALGARY, AB**

Our client will be the most technologically enabled science centre or museum in Canada. Telus World of Science is a place of inquiry that looks at issues, ideas and concepts related to science, technology and creativity. For this not-for-profit, independent society the visitor experience, guest service, operations effectiveness and efficiency, revenue generating capabilities, and systems to support these functions are crucial to sustain the quality of performance and services for all stakeholders. The organization is in the midst of building new facilities and launching a bold new vision and mandate to support people of all ages and abilities to put their imagination into action by providing inspiration, tools and opportunities so they find the curiosity, confidence and skills to thrive in the new global world .

The Chief Financial Officer is a new position, a key member of the executive team, reporting to the CEO, and accountable for TWS financial sustainability through engaging leadership in proactively managing financial, human and program resources and providing accurate financial reporting. The CFO will provide direction to the organization through the synthesis of information, trends and accurate data to enhance and improve decision making and ultimately the impact in the community.

Our client is seeking an executive finance leader respected by peers, an innovative and accomplished change agent with a track record of successfully leading in complex Board governed organizations - an outstanding individual with a passion for curiosity and continuous learning, a seasoned strategist who has underpinned their career with a business related degree complemented by a professional accounting designation and preferably a graduate degree in a related area – MBA, MPA or equivalent. You need to have ten or more years of progressive experience in leading teams of senior finance, accounting, and core business professionals to sustain the effective operations of a complex organization, combined with a solid knowledge of all regulatory and best practices. Comfort and confidence is a must to succeed in a challenging environment of collaborative stakeholders.
